

Quality Policy

Air & Marine Products Limited is an authorised stocking and value added distributor for Safran Electrical Defense, Safran Electrical & Power, APM Hexseal, Comtronic Connectors and Sure Power. The company has over 40 years experience of sourcing, procurement and supply of electro-mechanical components specifically for the aerospace, marine and tracked vehicle markets.

We, the employees of Air & Marine Products Limited, are committed to consistently provide products and solutions that meet or exceed the requirements and expectations of our customers. We will actively pursue quality improvements through programs that enable us to do our jobs right the first time and every time, whilst ensuring that we comply with all relevant regulations and other requirements. Only by providing an outstanding service and product quality will we achieve our aims of long term success and continual improvement.

To achieve this, The Directors are fully committed to complying with the requirements of AS9120B & ISO 9001:2015 and to continually improving the effectiveness of the Quality Management System. The Quality Policy, the Quality Objectives and the Quality Management System are reviewed regularly at our Management Review Meetings and more frequently as appropriate. At these meetings, we ensure that all aspects of our Quality Management System remain compatible with the context and strategic direction of the Company.

The Quality Policy, Quality Objectives and the requirements of the Quality Management System are communicated to all employees within the Company. This is achieved via induction and training programmes. Management Review minutes are also communicated to all relevant employees.

The Directors recognise that the continued success of its business is dependent on a continued commitment to the quality of its services, and therefore fully endorses the Quality Policy, and will support all those who endeavour to carry it out.

Air & Marine Products Limited's Quality Manager is responsible for monitoring the quality system and reports regularly to the Directors on the system's implementation, status and effectiveness.
