

J300 LINE

ALTERNATE ACTION PUSHBUTTON SWITCHES

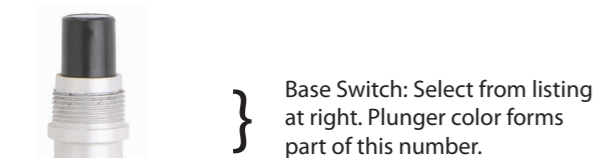

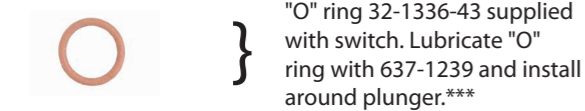

Component Part Determination

The J300 line of switches is available in four standard plunger colors, nine standard adapter (mounting bushing) styles, with DPDT and two circuit contact configuration. The completed catalog number is a composite made up of the "base switch P/N" and suffix letters and numbers, which represent these components.

To order any J300 series switch:

1. Divide the catalog number.
2. Select the component parts.
3. Assemble and mark the completed switch.

*** Requisition lubricant separately.

BASE SWITCH LISTING	
Order	To Make Type
P277	J313 * 6
P277R	J313 * 6R
P277W	J313 * 6W
